

THE BIRTH OF A BLIMP

Columbia (left) and Mayflower are soon to welcome to public life a third sister, the new blimp "America."

Three gentle giants of the air — the Goodyear airships — float their friendly greetings above America with less frenzy and a more disarming approach than many another form of public relations.

They are the only "blimps" now operating in any part of the world. But gas-filled dirigibles have been flying for over a hundred years, longer than any winged aircraft. Goodyear has built 298 of these lighter-than-air craft since 1917, 53 for the company and the rest for the Army and Navy, who have now ceased airship operations.

The last-built of the present elephantine trio, the "America," completed in the summer of 1969, is part of an expansion and improvement program for the blimp fleet. The America's ponderously graceful sisters are the Mayflower, launched late last year, and the Columbia, soon to be replaced by a brand-new version. They are all named for winners of the America's Cup yacht race.

This Picture Show page tells the story of the building of the America — an over-sized sewing and blowing-up job. The new blimp is 192 feet long, 50 feet wide and 59½ feet high. Its envelope is made of neoprene-coated dacron, and is filled with 202,700 cubic feet of nonflammable helium.

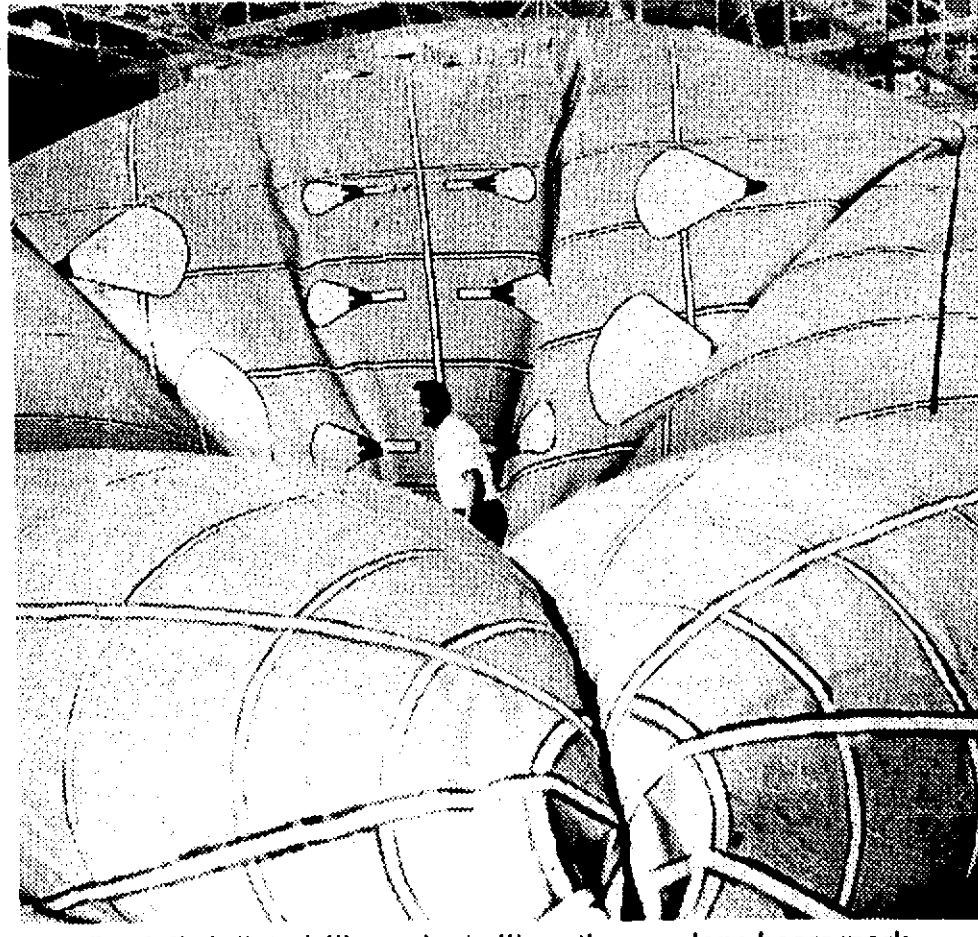

The airships tour the United States from May to October (from November to April they are at their winter bases). By day they visit sports events, civic functions, great city parades, village shows, country fairs, company picnics, clambakes. Besides taking passengers up for short joyrides, a lot of flying time is spent in public service, helping government agencies research programs with survey work, for example.

By night, the "Skytacular" panels of lights attached to the airships' ample sides sing in flashing color through the dark skies. The America's animated signs are composed of 7,500 computer-controlled bulbs in colored reflectors, connected by 80 miles of wiring. The night signs are used to support public service programs, such as United Fund drives and Savings Bond campaigns, as well as to present Goodyear messages.

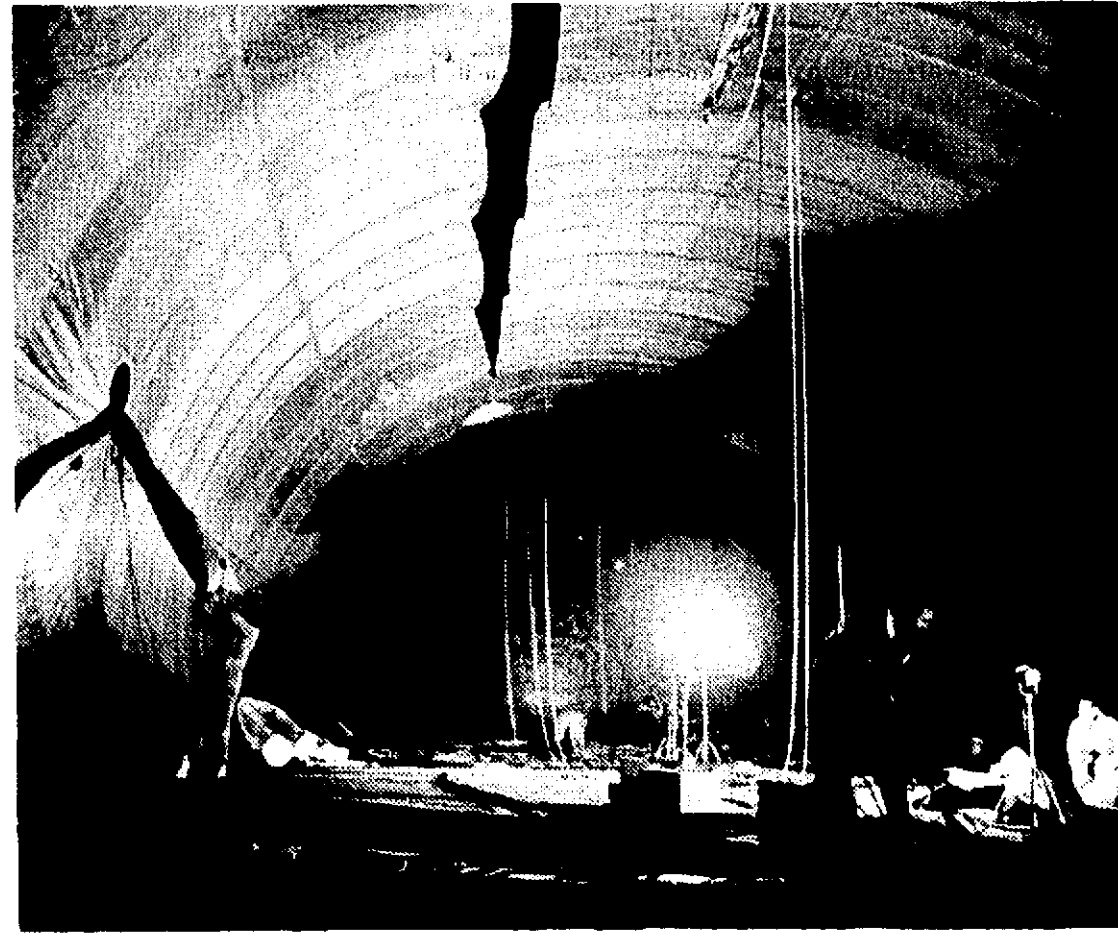

This Week's PICTURE SHOW—AP Newsfeatures.

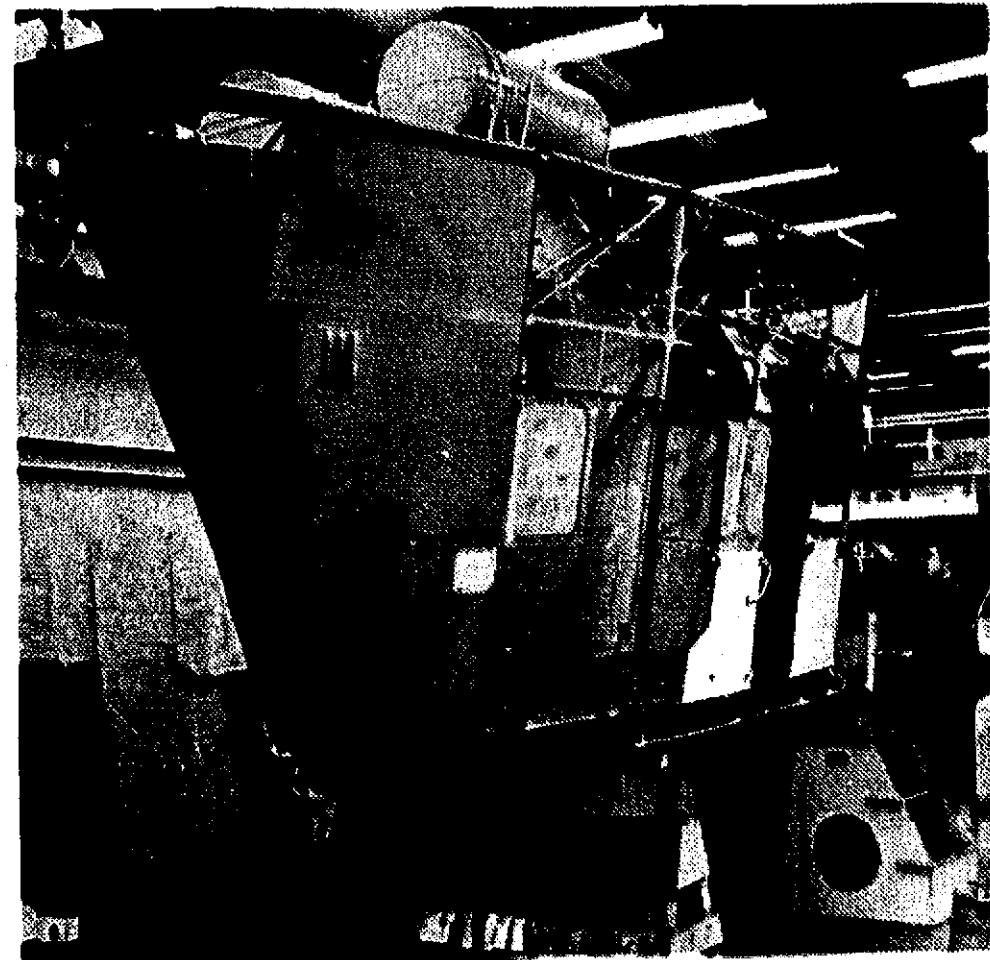

The America's envelope of neoprene-coated Dacron has been cut and stitched and is now ready for inflation.

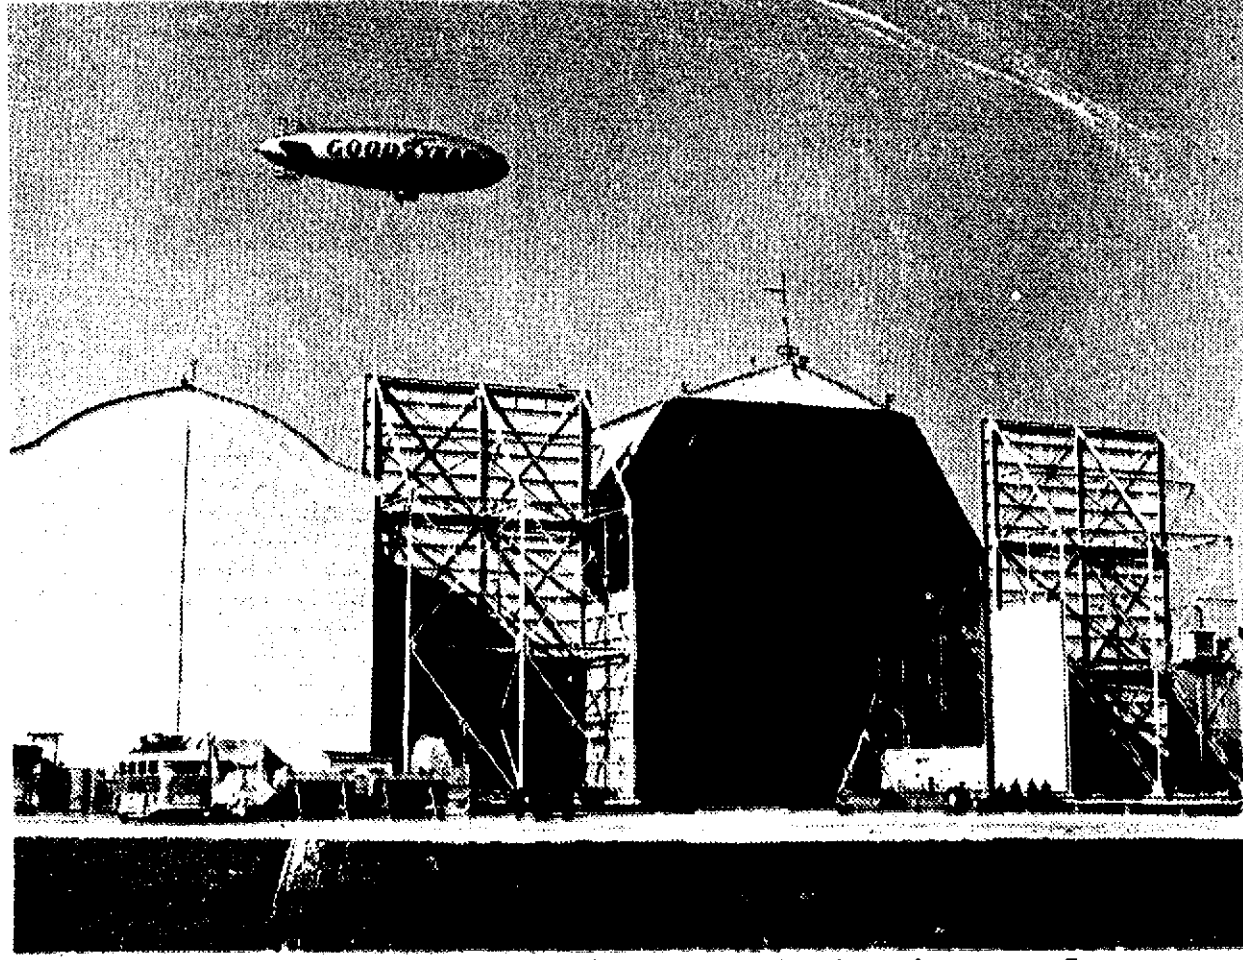

Partially inflated, like a giant pillow, the envelope bears markings showing where rudder and fins will be attached.

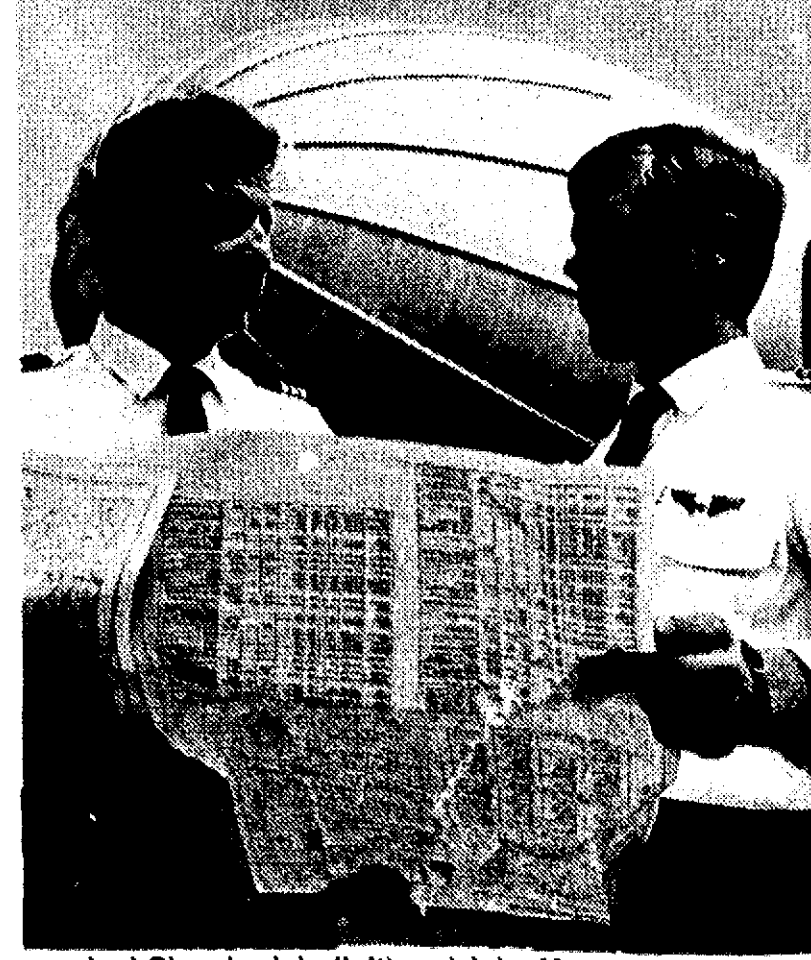

In the America's cave-like interior skilled riggers install cables which will secure the gondola to the envelope.

The America's lightweight car, or gondola, will carry six passengers and a pilot, when completed.

The America's maiden flight takes place over the Goodyear Aerospace Corporation facilities at Wingfoot Lake, Ohio.

Joel Chamberlain (left) and John Moran, two of the America's pilots, plan routes for further test flights.

Phone 777-3431 Between 8 a.m. and 4 p.m.

Calendar of Events

FRIDAY, SEPTEMBER 26

SATURDAY, SEPTEMBER 20

The Hope Country Club Women's Championship Golf Tournament will be held September 15-October 15. Pairings are to be made by handicap. If no handicap has been established, a qualifying score must be turned in to the pro shop by Saturday, September 20.

The Hope Junior Auxiliary will sponsor a Spaghetti Supper in the Hope High School Cafeteria from 5:30 until 7:30 p.m. Friday, September 26. The price per plate will be \$1.50 for adults and 75 cents for children under 12 years of age with the profits to be used for two students scholarships.

SUNDAY, SEPTEMBER 21

A Mixed Scotch Ball Golf Tournament will be played at the Hope Country Club Sunday, September 21 at 4 p.m., followed by a potluck supper. Hostesses: Mrs. Walter Wilson, Mrs. Boyett Powell, and Mrs. Corinne Magee, all of Lewisville.

SATURDAY, SEPTEMBER 27

Friday Music Club President, Mrs. Clarence Geist, will be honored with a luncheon Saturday, September 27 at 12:30 p.m. in the Heritage House. Members are asked to call Mrs. Roy Stephenson, 777-4210, by Thursday, September 25 for reservations.

Hospitals Hire Most Med Lab Assistants

By ERNIE HOOD

Distributed by NEA

Employment opportunities for medical laboratory assistants are expected to be excellent through all of the 1970s.

More than 50,000 are known to be employed in this field, about 80 per cent of them women. About three-fourths of all laboratory assistants work in hospital labs.

Laboratory assistants perform laboratory tests to analyze body fluids for various biological components and to aid medical technologists in determining the presence of cancer, tuberculosis, diabetes, meningitis and other diseases.

Assistants also prepare tissue samples, take blood samples, prepare slides for microscopic study, store and label plasma, clean and sterilize laboratory equipment, prepare solutions following standard laboratory formulas and procedures, keep records of tests and identify specimens.

Those employed in large laboratories may concentrate in one of the several areas of laboratory work: Bacteriology, serology and parasitology, hematology, blood bank, clinical chemistry, urinalysis, or basal metabolism and electrocardiography.

In small laboratories, medical assistants generally work in many areas.

Many medical laboratory assistants receive their training on the job. In recent years, however, an increasing number have received their training in academic programs conducted by hospitals or by schools in co-operation with hospitals. In the future, academic training probably will be required by most employers.

Academic training programs for medical laboratory assistants are offered in special schools operated by hospitals, in vocational schools and in junior colleges. Hospitals offer the greatest number of training programs, some of which were established recently under the Manpower Development and Training Act and the Vocational Education Act. For entry into these programs, graduation from high school with courses in science and mathematics is required generally. The programs last a year and include classroom instruction and training in the laboratory.

Medical laboratory assistants in junior colleges usually last about two years.

Young people interested in a career as a medical laboratory assistant should select a training program with considerable care. Information should be obtained about the length of time the training program has been in operation, instructional facilities, faculty qualifications and the kinds of jobs obtained by graduates.

Assistants who continue their education and obtain a bachelor's degree in biology or chemistry, or a degree or a certificate in medical technology, can advance to medical technologist.

Personal characteristics considered desirable include good vision, manual dexterity and the ability to work under pressure and to work well with others.

HELEN HELP US!

by Helen Bottel

by Helen Bottel

by Helen Bottel

At the same time, guys are going for bright colors, suits, neckties, shirts that have real style and frankly, they outshine the gals so much that it's no wonder they sometimes choose each other.

Dear Guy: The AVERAGE girl is trying her best to look her best. For every "Hip, hip, no bra" gal there are a dozen who realize nature needs a little help. . . And if make-up were going out of style, how come cosmetic companies never had it so good?

Leave us don't generalize, chum.—H. (P.S. One way or another, I think the "no bra" fad will turn out to be a big flop.—H.)

Dear Helen: A Vietnam serviceman's "Letter to Santa" satirically condemned all pro-

testors. Doesn't he see that both he and the "peaceniks" are working for the same thing—peace? How many deaths will it take before he knows that too many people have died?—PACIFISTS

Dear Helen: I feel very sorry for the "letter to Santa" writer. He has endured the many miseries he so eagerly described, but only in vain. Isn't the purpose of our suffering to make us grow and help us understand each other?

I know it is difficult for a soldier in action to realize that we legitimate "protestors" (really, most of us are very clean) are dedicated to the anti-war cause. I don't expect him to support all our views, but I do think he should respect the very thing HE is "protesting" (i.e., "fighting") for: The freedom to think, to choose, and to act according to our own individual beliefs. It is a shame he has gone through so much and yet gained so little. —ANTI-WAR, NOT ANTI-SOLDIERS

Dear Helen: That Vietnam serviceman who damned the protestors implied we were cowards. It isn't cowardly to work for a better world—and to risk jail and beaten skulls if need be. Adlai Stevenson said shortly before he died, "Do not, therefore regard the critics as questionable patriots. What were Washington and Jefferson and Adams but profound critics of the colonial status quo?" . . . The patriots are those who love America enough to wish to see her as a model to mankind. This is not treachery. This . . . is the truest and noblest affection. —ROBERT

Dear Helen: We anti-Vietnam war people are laying our futures on the line to persuade enough people in America that we should bring our suffering servicemen home. Yet those same servicemen, like the one who wrote "Santa", think we should be chopped up by the Viet Cong, so we'd learn how rough war is. We know it's rough. That's why we're against it. There has got to be a better way. Why condemn us for trying to find it? —TOD

Dear Helen: A neighbor of ours is a believer in draft card burners, etc. I wish this woman could be the Vietnam Serviceman's Christmas present! My brother enlisted in the Air Force, and is proud of it. She said he was out of his mind. If we only had more such fellows, maybe this war would come to an end. —NANCY

Dear Readers: So far, Nancy's letter is the only one which took the Vietnam serviceman's part. I've been flooded with protests from "protestors" who feel he was much too rough on them.—H.

Elevated Shoe Styles
Shoe styles are becoming more elevated—the heels, though still thick, will be higher for fall and winter. Chunky shoes, in silver and gold, are the new "news" in evening wear, although the daintier evening footwear will still be used.

It's a Wife-Saver
Copper tarnishes almost 20 times as quickly as silver. Winter months are hardest on metals since heating systems contribute to smoke and gases in the air. The new tar nish preventative spray is a wife-saver because it lessens the time spent polishing each year. Other members of the family will find it useful to keep buttons, buckles and jewelry shiny and protected.

YOUTH BEAT
THE NATIONAL REPORT ON WHAT'S HAPPENING

By ROGER DOUGHTY

GROUP SCOOP—Figuring you can't hardly get along without the stuff, Elektra Records serves up a group called Bread. Their first LP, titled Bread (what else?) turns out to be a tasty treat that slides down like hot buttered toast, country-folk-rock variety. "Move Over" and "Dismal Day" grabbed our ears, but there are 10 other goodies to choose from, all guaranteed to soothe your soul (this Bread doesn't claim to build strong bodies 12 ways, but you won't even care). David Gates, James Griffin and Robb Royer is (are?) Bread and when it comes to pickin' and singin', they don't loaf (ugh!).

"HAIR" ROLLS ON—Students from the National Academy of Drama, outdoing even SDS, are locked in battle in the streets of New York to keep their playhouse open and raise funds for their alma mater. Chief attraction is an almost bald model-student who appears on top of a Rolls-Royce wearing nothing but a great big smile and a pony tail that erupts from a small section of her shaved cranium. Gimmick is to sell chances on the Rolls and make a getaway before the fuzz moves in for a bust. But far out maybe, but effective.

JET SET—Kids getting high (the legal way) on airline speciality tickets that permit unlimited travel on weekends. Best birdmen so far are Dave Dasef and Scott Daniels, two Grosse Pointe, Mich., high school students who plunked down \$30 each and logged 4,330 miles in two days on Mohawk. Any challengers?

AIRPLANE TAKES FLAK—Jefferson Airplane can't seem to get off the ground with their forthcoming album. Volunteers of America, since it turns out that there's a philanthropic outfit called Volunteers of America (has been since 1896) that isn't especially friendly toward rock groups. The Volunteers say they'll sue if Jeff uses their name in the LP title. Meanwhile, RCA is balking at some of the lyrics, the government is getting up tight about the use of the flag in the cover photo (seems there's a law against it, etc. etc. etc. All of which assures the disc of selling a million if and when it makes it into the stores, and you can bet it will).

—Shipley Studio Photo

MISS DEBHAEE HOOSIER

Mrs. Hazel Hoosier of Hot Springs, Ark., announces the engagement and approaching marriage of her daughter Debhae, to B. J. Davis, son of Mr. and Mrs. Doane Davis of Malvern, Ark.

The bride-elect is the granddaughter of Mrs. J.W. Thornton, Springs, Ark., and a 1968 graduate of Hope High School. Mr. Davis is a 1969 graduate of State College of Arkansas and now employed by Aetna Life and Casualty Insurance Company. The wedding will be an event of November 1.

Fraternity System Is Fading

By JOYCE GABRIEL

NEA Staff Correspondent
SYRACUSE, N.Y.—(NEA)—At Syracuse University, Walnut Park traditionally was the playground for fraternity men playing football for the benefit of girls eagerly watching from the porches of sorority mansions. In the middle of fraternity row, Walnut Park was the meeting place of the campus's social elite.

But the park isn't a park any more—it's the site for a new library.

Ten, even five years ago, the Park's passing would have been mourned by the mansion-dwellers. But sorority women and fraternity men have other things to think about—financial and membership problems, pressure from university officials, state officials and non-Greek students. The fraternity system is fighting the obsolescence that has come to the park.

Last year, Syracuse's fraternity problems went pop when Alpha Delta Pi, one of its older sororities, had to disband. The reason: Not as many girls were interested in rushing (seeking membership in the house) and Alpha Delta Pi, as one of the smaller, less prestigious houses, couldn't get any pledges (girls willing to join). It spelled financial ruin for them, even in the Greek alphabet.

The closing was an omen in the Greek drama that began at Syracuse in the 1870s and reached its climax on one of the most fraternity-oriented campuses in the nation. A medium-sized private university, it has 20 national sororities and over 30 national fraternities.

At the height of fraternity popularity, the majority of freshmen were interested in joining. The houses were able to be selective and at the same time fill their membership quota. In recent years, as few as 200 girls out of 1,300 in a freshman class began rushing—and those 200 girls had to be divided between 20 sororities, with some of the larger houses taking as many as 25 pledges.

The decline in interest at Syracuse isn't an isolated phenomenon.

According to "College Confidential," a book that's a compilation of college student opinion across the country, "the problems many sororities and fraternities are having these days, when it is no longer fashionable to cling to one's own, is that fewer people are willing to die for the old house. Underclassmen reap the social advantages and quit."

At the University of Wisconsin, Kappa Alpha Theta sorority, which has a national reputation as a beauty and "class" house, has placed ads to take outside boarders to defray house costs.

Yearly living expenses at the Theta house are approximately \$1,350, as opposed to \$1,000 for apartment living.

Socially, fraternity affiliation has changed from an asset to liability. For years, fraternities operated on a quota system—the WASP houses would take a token Catholic or Jew and the Jewish houses would pledge a token Christian. Now university and state officials want a heterogeneous pledging policy.

LONGEST BEARD in Finland graces the face of this pensioner, Sigurd Romar of Helsinki. The beard, about two feet long, took seven years to grow. Romar said his only problem is keeping it straight.

TIEDE

Goldfader was hired to find a teen-ager named Elizabeth. The only things he had to go on were personal statistics, habits and some letters written back home postmarked from Florida. The letters were conciliatory notes, hinting the girl was sorry for leaving, which, says Goldfader, "is usually the way it is with most runaways."

First, the detective checked out the Florida postmark. And within a few days, a stringer called to say the letters were not being written in Florida, but in Chicago, and sent on to Florida for referral mailing. So Goldfader switched the investigation to the Windy City.

There he thumbed through the usual identification records—licensing, employment, etc. And sure enough, among the names of the company's group insurance policy holders, he found his runaway girl.

"Naturally," Goldfader says, "we didn't grab her. That's neither legal, necessary or any of our business. We stayed behind the scenes, reported our information to the parents, then dropped entirely out of the picture."

This particular search-and-find mission, Goldfader recalls, took a bit over a month—about average recovery time as such things go.

And the cost was average, too—a \$1,000 fee.

The cost, of course, is high. But not really, says Goldfader, when the clientele is considered. He says his customers are mostly aw

HEAR THESE WORDS

Worship In Church Every Week

Fruit Of The Spirit

Eagerly we await each new season and the crop of fruit from our trees. We know the harvest depends on the quality of those trees. The Good Book plainly tells us that good fruit comes only from good trees and bad fruit from bad trees.

A human life is like that. And the need is great for good people who will produce good fruit for the common good . . . fruit of the spirit!

Love, joy, peace, humility, temperance and a faith to live by.

We have too much immorality, licentiousness, enmity, strife, anger and selfishness already. These are the fruits of bad trees. One would do well not to allow too much of this harvest on his fruit bowl.

Is your life producing fruit of the flesh because it is world-centered?

Or is your life God-centered and producing Fruit of the

Spirit? The Apostle Paul reminds us that good

fruit is expected from us. What is the quality of fruit in your fruit bowl.

What kind of tree are you?

HOPE NEWSPAPER HISTORY:
The 1929 consolidation joined the
two principal newspaper lines
dating back to within five years
of Hope's incorporation in 1875.

1899 — Star of Hope founded
as a weekly by Claude Mc-
Corkle; converted to an evening
daily by his son, Ed. McCorkle,
publishing until the 1929 con-
solidation.

The opposition line:
1880 — Hope News founded by
Lowry Brothers.
1883 — Sold to Withers & John-
son, name changed to Hope Tele-
graph.

1883 — Later in same year
resold to Claude McCorkle and
renamed Hope Mercury.
1884 — Sold to James H. Betts,
who named it Hope Gazette, under
which name it was published con-
tinuously until 1922, published by
Betts, J.L. Tullis, and Col. W.W.
Folsom the last-named dying in
1916.

1916 — Perkins & Gates bought
the weekly Gazette and made it
a companion paper to their new
daily, Arkansas Evening Herald
— but both papers suspended in
1922.

1926 — Plant was revived by
Curtis Cannon as the weekly
Hempstead County Review.
1927 — Cannon sold plant to
D.A. Gean, who established the
morning Hope Daily Press.

1929 — C. E. Palmer and A.H.
Washburn consolidated The Star
and the Press as Hope Star, with
Palmer as president and Wash-
burn secretary-treasurer.

1957 — Following Mr. Pal-
mer's death Mrs. Palmer be-
came president.

1969 — With Mrs. Palmer's
retirement from Star Publish-
ing Co. Washburn became 76
per cent owner and president —
balance 24 per cent being held
by Texarkana Newspapers, Inc.

West	North	East	South
1 ♠	1 N.T.	Pass	4 ♥
Pass	Pass	Pass	Pass
Opening lead—♠ K			

The title of this article might well be, "Crime some-
times pays but seldom pays
well."

The game was duplicate
and South's four-heart bid
was mildly criminal. He
should have seen that his
hand would probably be just
as good as dummy at no-
trump as declarer at hearts.
When he looked at the
dummy he realized the error
of his ways but it was too
late to do anything except to
try to find a 10th trick. He
found it all right. West
cashed the king and queen of
spades and shifted to the
jack of clubs. South won in
dummy, played a trump to
his ace and back to dummy's
queen and jack. Then he led
the jack of spades in an ef-
fort to smother the 10.

If the 10 had appeared he
would have discarded a club
and the nine of spades would
have been established as his
10th trick.

The 10 did not oblige so he
trumped. South was still in
good shape. He had noted the
fall of the queen on the first
club lead so obviously West
had started with 4-1-2-6 dis-
tribution and since he needed
the king of diamonds for his
opening bid, he was going to
be squeezed in three suits.
South cashed his last two
trumps. West let his 10 of
diamonds go on the last
trump because he had to
hang on to two clubs and the
ace of spades. Now South
led a diamond to dummy's
ace and made his 10th trick
with the queen.

South was very happy
about the result until he
checked the scores and found
that most of the three no-
trump bidders had managed
to scramble a 10th trick by
developing an end play
against West and that the
other four-heart bidders had
managed to collect the same
10 tricks he had picked up.

(Newspaper Enterprise Ass'n.)

♥♦♣ CARD Sense ♠♦♥

Q—The bidding has been:
West North East South

You, South, hold:
♠ A K 10 9 8 ♦ A ♣ A K J 5 4
What is your opening bid?
A—Open one club. The hand
is not quite strong enough for
an opening two bid. It is strong
enough so that you should de-
finitely bid your longer suit
first.

TODAY'S QUESTION

Your partner responds one-
diamond. What do you do now?
Answer Monday

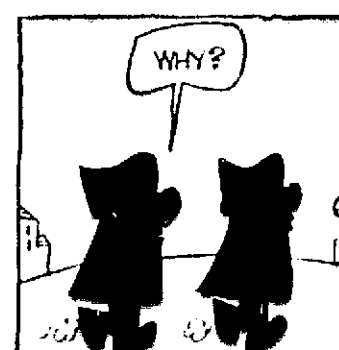

motor vehicles has not yet
disturbed Fire Island,
although just five miles
away, across the Great
South Bay, the noxious fog
floats above Long Island.
On a clear day, then, you
can see only to the nearest
traffic jam.

Wouldn't it be nice, one
might think as he rejoices in
the pure air of a retreat un-
touched by the automobile,
if vehicular traffic were
banned from center cities?
It is not a new thought, to be
sure, but a thought which
the highway forces keep at
arm's length.

A. Q. Mowbray, in his
important but largely un-
known book, "Road to Ruin"
(Lippincott, \$5.95), sums up
the situation:

"The constant din of
automobile engines and the

DAVIS PARK, Fire Island,
N.Y.—(NEA)—A shoelace of
sand separates Long Island
from the Atlantic Ocean.
Built precariously on the
ever-shifting foundation are
simple beach houses linked
by boardwalks.

Although Fire Island is no
more than 75 miles from
the center of Manhattan, it
is truly another world, a
world in which New Yorkers
can rest in delicious aban-
don, savoring what once was
and may, eventually, never
be.

To begin, the vacation
colony is largely without
electricity, a circumstance
which may frighten the con-
temporary consumer used to
his plug-in gadgetry. Not so.
LP fuel does an adequate
job and so what if stereo
phonographs aren't blasting
at full crank?

There are no telephones in
the beach houses. The vaca-
tioner on Fire Island is not
to be harassed by anxious
calls from the office.

And there are no automo-
biles. A trip to the general
store means a bracing walk
on the boards.

Several years ago, con-
summate highway builder
Robert Moses (known to
some as the Mad Paver) sug-
gested that a freeway be
constructed the length of the
island. But angry citizens
were somehow able to nip
that fool notion in the bud.
Unfortunately, most citizens
haven't the muscle to foil the
highway establishment.

The poison of unburned
hydrocarbons thrown up by

Bobcats Run Over DeQueen in 28-0 Rout

By RALPH ROUNTON
Star Sports Writer

Look out Smackover. A hungry bunch of Hope Bobcats, tired to losing and doing something about it, walloped the DeQueen Leopards 28-0 in a non-conference battle Friday night before a full house at DeQueen.

And those pesky Smackover Buckaroos are next to enter the arena, come next Friday evening at 7:30 p.m. They will face a Hope team now 2-1 for the year, and the Cats have outscored their opposition 61-4 overall. DeQueen fell to 0-3 and the Leopards succumbed to bad breaks and lack of ball control.

Once more, Artis Martin grabbed scoring laurels with three touchdowns to increase his season point total to 36, and the unstoppable senior rambles for 127 yards on 19 carries. That doesn't include a 40-yard scoring jaunt which was called back for clipping, or he would have begun to approach 200.

It was another shutout for the defense, which had to stand up to 34 pass attempts by Leopard quarterback Larry Miller, which once moved DeQueen to the Hope four before running out of downs. And they did it without tackle Jim Alford, who was held out with an ankle injury so he will be ready for Smackover.

DeQueen took the opening kickoff, but quickly the Bobcat defenders set up domination that would eventually hold the Leopards to minus 31 yards rushing. From the 15, three plays only gained four yards and end Jackie Bell dropped back to punt.

He kicked it high away from Artis Martin, but Lee Davis took the kick at his own 36 and found the wall. Picking his daylight beautifully, Lee rambled all the way to the DeQueen 23 before he was hauled down.

From there Artis carried twice for a first down at the 12, then broke loose on the next play up the middle for a 12-yard TD. Ronny Brown's kick was blocked, but with 9:04 left in the quarter Hope rested on a 6-0 cushion.

After the teams traded punts DeQueen took over at their own 41 and began to move. Miller hit tight end Jackie Bell for nine yards at midfield, and half-back Twaunt Wilson made the first down at the Hope 47.

With 3rd and six at the 43, Miller slipped back and threw, but Bobcat Ronny Brown intercepted and was downed at the 37. That started a 60-yard drive to paydirt, which was beautiful all the way.

The crucial play was a 3rd and seven at the Hope 40, when Massanelli hit Lee Davis for a 37-yard pass play to the Leopard 23. Artis ran down to the 16 then two plays later ran to the nine for first and goal.

It took one more play, as Artis Martin showed his stuff against the DeQueen goalline defense and roared over from the nine. This time Ronnie Massanelli rolled right on a two-point attempt, and at the last second hit David Still in the back of the end zone to make it 14-0 with 2:02 left in the opening quarter.

Still the Leopards couldn't move, but the Bobcats had to punt too. When DeQueen kicked it back, Lee Davis used his legs to return 26 yards to the Hope 42, and the stage was set for another drive.

Two plays netted a first down at the Leopard 44, and seconds later Massanelli hustled 13 yards to the 28. That one was nullified, though, with officials bringing the pigskin back to the 46.

However, the junior-signal caller dropped back again, and hit end David Still for 46 yards and the third score with 7:02 still left in the half. Brown kicked this one through the uprights to make it 21-0, and from that point it was a pretty boring game.

DeQueen did mount their only serious offensive in the half's closing minutes with Miller passing every play. Completing 5 of 8 passes, he took the Leopards downfield with some pressured third and fourth down breakthroughs. The drive ran out of steam at the Bobcat four with 1:11 left in the second period, and it was the home squad's last chance.

With the second-half kickoff, Massanelli directed the Cats on a back-breaking march. Ray Wheelington brought the kick to the 41, and from there on it was all on the ground.

Robber Newton came into the backfield and dashed off 28 yards on four runs, which perfectly meshed with Artis Martin's sweeps and Thomas Lloyd's gains. Martin actually broke again for a 40-yard score, but a clipping infraction called it back.

After nine plays, the Cats set up camp at the DeQueen 13 and decided to score again. For the third time officially, Martin then swept around left end for the remaining 13 yards and the final score. Brown's kick made it 28-0 with 7:35 left in the third quarter, and the win was sealed.

After that the second-team offense ran the Hope show, and sophomore quarterback Tommy Frazier actually fired a 28-yard TD strike to flankerback Terry Vines which was voided by an ineligible receiver downfield. Then late in the game a recovered fumble helped the reserves move to the six, where on fourth down Brown missed on a field goal attempt with seconds left.

While the scorers gained the glory, Coach Ronnie Higgins served notice later that running back Gary Jones did an excellent job in leading the blockers on all those sweeps by Artis and the pass plays. Jones is a potentially good runner, but at present the coaches are thoroughly pleased with his mop-up job on opposing defenders.

Higgins also named Calvin Willis, Glen Rook (who played the whole game defensively in place of Alford), Ronny Brown, and the entire secondary with fine performances in helping get the shutout. Jackie Bell, Dennis Turner, Glen Tollett, and Gary Bell led the DeQueen tackle charts.

Martin's 127 yards led everybody, but Thomas Lloyd garnered 53 more on six trips and Newton credited 28 on four calls. Twaunt Wilson got 13 yards and Gary Bell 12 to pace the Leopards, but Dick Van Bebber snagged seven passes for 70 yards total.

So happiness 1969 includes two wins in a row, and 2-1 Smackover brings a good 4-A yardstick into town next Friday. It should be close, but when you are winning the little things just fall in place.

On Monday evening the "B" Lizards shoot for their first win, traveling to Nashville to take on the Scrappers at 7:30 p.m. And elsewhere today you will read that Camden upset Magnolia (as predicted here yesterday) 20-19 Friday night to end the 18-game Magnolia winning streak.

State Captains Are Selected

JONESBORO, Ark. (AP) — Center Dan Buckley and line-backer David Walls will be the Arkansas State University co-captains Saturday night when the Indians open their season at Jonesboro against Eastern New Mexico.

Coach Bennie Ellender announced Thursday that he had selected Buckley and Walls.

LIKE A GIANT SERPENT, a section of 30-inch pipe is set in place by sideboom tractors. The massive concrete anchors attached are to keep the pipe in place in Louisiana's bayou country. The line is an extension of the nation's natural gas network which now covers more than 860,000 miles.

Gromyko to Make Speech Before UN

UNITED NATIONS, N.Y. (AP)—Soviet Foreign Minister Andrei Gromyko follows President Nixon to the rostrum of the U.N. General Assembly today. But there was no advance indication whether the Russian spokesman would respond to Nixon's bid for Soviet help toward peace in Vietnam and the Middle East and a nuclear missile hold-down.

Gromyko was the morning's third speaker in the 126-nation assembly's general policy debate which Nixon opened Thursday.

Public Learns About Spending by Pentagon

By H. L. SCHWARTZ III
Associated Press Writer
WASHINGTON (AP) — Senate critics of defense costs say a new era has opened in public awareness of Pentagon spending despite their crushing defeat on attempt after attempt to trim a \$20-billion bill for military hardware.

"We have made a good fight," said Democrat William Proxmire of Wisconsin, a leader in the two-month battle that ended Thursday night with passage of the bill.

"But," he added, "this is merely the opening shot in a larger effort. The critical review will go on."

"A defense system which for years has operated without sufficient public and private checks has now been exposed to the sunlight," said Republican Edward Brooke of Massachusetts. "A good foundation has been laid for future inquiry."

The Proxmire and Brooke comments came as the huge appropriations measure finally passed on an 81-5 vote, climaxing the most heated debate over defense spending in two decades.

Although it passed virtually intact—only \$70 million was chopped out—it took 39 full days of debate over the two-month period, Pentagon backers had to throw back more than a dozen attempts to delay such major programs as the Safeguard missile defense system, a new nuclear carrier, mammoth new battle tanks, squadrons of supersonic fighters and a new manned bomber.

The bill that finances all the United States' military hardware for fiscal 1970 now goes to the House where far easier going is expected.

The measure, however, must again go through the Senate for appropriation of the actual cash and there is a possibility the liberal band that put up the fight this time might try again on some projects.

Actual amounts authorized are \$19.98 billion over-all for planes, ships, missiles and vehicles, with \$7.1 billion earmarked for research, development, test and evaluation.

Pentagon critics were able to cut out \$45.6 million for social science research and \$25 million from the emergency fund.

Cat Survived 28-Day Ride

FT. CARSON, Colo. (AP) — Traveling in the bedsprings of a double bed, a female cat made it from Augusta, Ga., to Colorado Springs in 28 days.

Snowball, a year-old kitten belonging to Janice George, daughter of Ft. Carson's new deputy post provost marshal, began the ordeal when movers arrived to pack the couple's belongings for the trip to Ft. Carson.

Apparently frightened, the cat hid in the bedsprings and was taken away unnoticed by the movers.

After three days of searching, the Georges gave up. But when the van began unloading at Ft. Carson, Snowball turned up—thirsty, hungry and exhausted.

The family said a veterinarian advised them Snowball would recover.

Guerrillas Claim Raids on Israeli

By THE ASSOCIATED PRESS
Al Fatah claimed its guerrillas made their heaviest attacks ever on Israel Thursday night, but Israel reported only one skirmish in which it said four Arab saboteurs and no Israelis were killed.

A spokesman for Al Fatah, the largest Palestinian guerrilla organization, said in Amman that hundreds of commandos attacked 14 positions along a 30-mile front in the Jordan Valley. A later communique said the raiders wiped out two Israeli observation posts and three advance posts in the central valley.

The spokesman said the raiders used a variety of weapons, including heavy mortars, and that the Israeli air force was forced to send in jets for night strikes against them.

"This must be a joke," said the Israeli army spokesman, Lt. Col. Shubael Shalev. "Maybe the Fatah can run air sorties at night when they can't even see the targets but we certainly cannot."

Shalev said there had been only four reports of light arms and mortar fire in the area, with one Israeli soldier slightly wounded.

Later the Israeli command reported a skirmish after midnight 25 miles north of the Dead Sea. It said an Israeli patrol killed four Arabs near the Damiya Bridge across the Jordan, and "more bodies might be found later at the scene of the encounter." There were no Israeli casualties, he added.

A Jordanian army spokesman reported Israeli mortars and machine guns fired on some Jordanian positions in the southern Jordan Valley, but he said there were no Jordanian casualties.

In Cairo, President Gamal Abdel Nasser replaced the Egyptian army's chief of staff and the navy's commander without explanation. Nasser is in bed with what has been described as a case of acute influenza, but informants said he has set up an office in his stock room and is running the country from there.

See FEILD (on page 8)

Feild Proposal Would Limit Use of Drugs

A proposal to limit the use of certain harmful drugs in Arkansas was introduced to the Arkansas Legislative Council by Hempstead Rep. Talbot Feild Jr. Friday. Here is the proposal in full:

PROPOSAL NO. 24

WHEREAS, the increasing use of marijuana, LSD and other hallucinogenic drugs and narcotics have become a matter of national concern; and

WHEREAS, in many parts of the Nation, activities in which marijuana is being smoked and LSD and other drugs are being used, are resulting in more and more reporting of these events, by the news services, magazines, radio and TV coverage and such coverage of widespread abuse of the drug laws has created an impression among young people that such laws are unfair and should be ignored, and this has encouraged more and more of our young people to defy the existing laws which were enacted for their protection and safety; and

WHEREAS, there is developing in this country a growing permissiveness, resulting from the public's attention being called to individuals who flagrantly violate, and brag about violating, the laws regarding the use of marijuana, narcotics and hallucinogenic drugs; and

WHEREAS, it is common knowledge that marijuana and hallucinogenic drugs are being used by the young people in this State, who are not fully aware of the extreme danger to their health and mind and the consequences to themselves and society in the use of such drugs; and

WHEREAS, this problem is of increasing seriousness to the parents of school age children and young people of this State; and

WHEREAS, it is essential that every effort be made to inform the public of the situation that exists in the State concerning the use of marijuana, narcotics and hallucinogenic drugs and of the dangers thereof, in order that programs may be developed for the suppression and eradication of the unlawful sale and use of such drugs;

NOW, THEREFORE

BE IT PROPOSED BY THE LEGISLATIVE COUNCIL OF THE STATE OF ARKANSAS:

That the Legislative Council respectfully requests the Arkansas Medical Society, the Pulaski County Medical Society, the American Medical Association, the School of Pharmacy of the University of Arkansas, the State Health Department and the appropriate Federal agencies to cooperate with the Legislative Council in studying the problem of the unlawful use of marijuana, narcotics, and hallucinogenic drugs in this State and to assist in developing a statewide program of publicity to awaken the people of this State, especially young people, of the serious dangers in the use of such drugs.

The aforementioned groups are further requested to prepare appropriate recommendations resulting from the hearings

Fighting in Vietnam Is Stepped Up

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — U. S. troops fought half a dozen small clashes in the past 24 hours, two American helicopters were shot down and B52 bombers kept up their attacks on enemy bases, the U.S. Command said today.

U.S. forces killed 47 enemy in the ground fighting while losing one American killed and eight wounded, communique said. The helicopter crashes injured two men.

A spokesman said there were 21 enemy rocket and mortar attacks overnight in which one American was killed and seven were wounded.

The B52 bombers flew six missions in scattered parts of South Vietnam.

One wave of five bombers dropped 150 tons of explosives on North Vietnamese base camps less than two miles south of the demilitarized zone. It was from these camps that North Vietnamese troops attacked U.S. Marines twice this week, killing 26 Americans and wounding 71 others.

In one ground clash 22 miles northwest of Saigon 22 enemy were reported killed. U.S. forces said they also captured a North Vietnamese prisoner who said he infiltrated with about 300 North Vietnamese soldiers from Laos and Cambodia and arrived in Vietnam Monday. He told U.S. intelligence interrogators he was awaiting assignment to a Viet Cong unit.

Official sources said current information indicates the enemy command is preparing a winter-spring offensive to follow the fall one at the end of October.

It will be aimed, as have the past campaigns, at inflicting maximum American casualties and disrupting the South Vietnamese government's control of the countryside, the sources said.

Despite leadership changes, they said the long-range goal of Hanoi is to give the impression of a protracted war that would put pressure on the United States to speed up the withdrawal of American troops.

The sources said captured documents reflect three changes in the enemy's battlefield tactics:

— Less emphasis on large-unit attacks.

— Increased emphasis on destroying the South Vietnamese government's accelerated pacification program.

— Primary reliance on indirect fire attacks with rockets and mortars and small unit and commando ground assaults.

"This way," said one source, "the enemy minimizes his casualties, but it still permits attrition of American forces."

Military spokesmen reported that paratroopers of the 101st Airborne Division operating eight miles south of Hue uncovered the bodies of 150 Vietnamese civilians, apparently executed by the enemy during the 1968 Tet offensive.

Meaning of Electoral Reforms

By THE ASSOCIATED PRESS
WASHINGTON (AP) — The direct election amendment approved by the House would introduce a new method of electing the President.

What It Would Do:
The candidates for president and vice president who received the most popular votes in a national tally would be elected, providing they got 40 per cent of the total vote.

If no candidates received 40 per cent, a runoff election between the top two would be held.

What It Would Change:
Under the present system voters choose electors, named by their parties, who cast the actual ballot for president a month after the general election.

Each state gets as many electors as it has representatives and senators in the U.S. Congress. The candidate winning the popular vote in the state gets all its electoral votes.

A Slow Trip Through Arkansas Can Be Very Enjoyable Experience

By MARY ANITA LASETER
Star Feature Writer

The travel brochure read "Take a slow trip through Arkansas and revel in the abundant beauty of our state." A few weeks ago that is exactly what we did. Since September is the usual time for bringing out new models of all makes of automobiles, one phase of that trip has been brought into sharp focus of our memory.

We went to see the museum of automobiles atop beautiful Petit Jean Mountain, and it proved to be a highlight of our vacation. Of course, the mountain itself is beautiful, and just enough camping areas, picnic tables, and facilities for outdoor sports are available to make an outing — particularly a family outing — thoroughly enjoyable.

But even though the blue, green, and great outdoors of Petit Jean Mountain are well worth seeing, don't fail to go indoors at the Museum of Automobiles. It is one of the world's outstanding collections of antique, vintage, and classic automobiles.

The Winthrop Rockefeller Collection begins in history with one of the very first gasoline automobiles ever constructed, an 1892 Benz. Nearby is one of the first low-priced mass-produced automobiles, a 1904 Oldsmobile. The production in 1904 of 5,000 Olds inspired the song "In My Merry Oldsmobile."

The collection is brightened by three dashing and colorful Stutz roadsters — cars that look like they came right out of the stories of the roaring '20's and '30's. If you notice, all the women viewers will be checking their makeup and giving a smooth touch to their hairdos. That's because each of the cars — about 40 in number — has been polished to mirror-like brightness. And what woman can resist a mirror?

The building in which the museum is housed is unique in itself. Beneath its suspended roof are 22,500 square feet of exhibit area that is unencumbered by interior pillars. Fountains in front of the museum are like a water ballet with their dancing waters, which reminds one of similar fountains at the Art Center in Little Rock.

But with all the scenic and architectural beauty available, the chief attraction is still the display of cars inside the museum. The mechanics of many of the models are exposed, and each one has interesting information on a plaque beside it pertaining to make, model, speed, horsepower, and the list price at the time of manufacture. A 1914 Cretor's vendor for hot dogs, peanuts, etc. still catches the eye of the beholder even without the food.

Petit Jean Mountain beckons the traveler to turn his steering wheel in that direction. Any old dull day will do for excuse to come.

Parade Opens Dist. Show Here Monday

The 25th annual Third District Livestock Show gets underway officially here Monday, September 22 and will continue through Saturday night, September 27.

The big parade will be held at 4 p.m. in downtown Hope and this signals the official start of events. The Sonny Myers Amusement Shows also opens on the Midway at 4 p.m. and the main event opening day will be the Youth Talent contest at 8 p.m. in the coliseum and this is free to the public.

Tuesday marks the start of cattle judging. The midway shows open at 4 p.m. and the main event Tuesday night at 8 o'clock is the Fair Queen contest which is also free to the public. This event starts at 8 p.m.

Wednesday's judging will start and a quarter horse show gets underway at 1 p.m. with the finals in the Coliseum at 8 p.m. This event too is free to the public.

The western phase of the show starts on Thursday. This has also been designated as school day and Sonny Myers has reduced all rides to school children until 6 p.m. Livestock judging contest will also be held. The first rodeo produced by Wing Ranch of Bogata, Texas will be held in the Coliseum at 8 p.m. An upright freezer will be given away.

Friday is the Junior Fat Calf sale. The Midway opens at 1 p.m. The second performance of the rodeo is slated for 8 o'clock and \$300 will be given away.

Saturday is the final day and the Myers Midway shows will start operating at 10 a.m. This marks the final performance of the rodeo at 8 p.m. and the Rodeo Queen will be selected and awarded a saddle. A new automobile will be given away.

Autos Entering U.S. Searched for Narcotics

SAN YSIDRO, Calif. (AP) — Automobiles entering the United States from Mexico were backed up for almost three hours as U.S. customs officials carefully searched them for narcotics in a test of "Operation Intercept."

Agents said no narcotics were found. But they said they were pleased with their test of procedures in the land phase of the air, land and sea effort to catch drug smugglers which will start at some still secret date.

Customs officials admitted, though, that the stiffer inspections could delay holiday and weekend visitors to Mexico for up to six to eight hours on return.

Some 450,000 persons in 150,000 vehicles enter the United States weekly through this border point between San Diego and Tijuana. There was no estimate of how many vehicles were searched Thursday.

Thousands of persons, though, including many Mexican nationals who work in the San Diego area, were late to their destinations by hours as the cars backed up for 3½ miles from border checkpoints.

Chrysler Ups Prices But Not as Much

By LOWELL MCKIRGAN
Associated Press Writer
DETROIT (AP) — Chrysler has emulated Ford in a charge against General Motors' super- or market position with a proven sales tool: lower car prices.

Chrysler announced 1970 model sticker prices Thursday averaging \$107 more than for 1969 cars. Ford announced its average hike of \$108 the day before and GM posted an average \$125 increase last week.

In preparation for the scramble in the market place, the nation's automakers scheduled their highest rate of output since late January. The trade publication Automotive News reported 193,846 new cars were being assembled this week.

Chrysler's 1970 models are being assembled at its plants in Detroit, Michigan, and in other parts of the country. The company's sales are expected to be strong this year.
